Adam Darby

Senior Front-End & Shopify Developer

Safety Harbor, FL · Remote
kyds3k@gmail.com · (404) 916-0919
kyds3k.github.io · linkedin.com/in/kyds3k

Front-end developer with 25+ years building for the web, from CNN.com in 1999 to brand Shopify storefronts today. I turn Figma designs into fast, accessible, maintainable themes, review code, onboard developers, and help teams adopt AI-assisted workflows. Trained as a technical writer at Carnegie Mellon, so clear communication and solid documentation come standard.

SKILLS

Front-End	HTML5, CSS3, SCSS/Sass, JavaScript, React, Next.js, Tailwind, Nunjucks, jQuery
Platforms	Shopify (Liquid, sections, theme releases), WordPress, Magento 1 & 2, Drupal, PHP, PocketBase
Practice	Git/GitHub code review, Figma, Jira, Klaviyo, REST APIs, accessibility (WAI-ARIA), cross-browser QA, technical documentation, AI-assisted development (Claude)

EXPERIENCE

Front-End Developer · eHouse · Remote — Jul 2025 – Present
- Build Shopify sites from Figma designs and review pull requests to keep code quality consistent across client projects.
- Onboard new developers, and serve on the team integrating AI (Claude) into developer workflows company-wide.

Senior Shopify Developer · Elva, a Third and Grove company (Shopify Platinum Partner) · Remote — Nov 2023 – Jul 2025
- Built, updated, and maintained Shopify sites from designer Figma files.
- Reviewed and approved PRs, onboarded new developers, and worked with PM to standardize Jira tickets for cleaner handoffs.

Senior Shopify Developer · Sweden Unlimited — Sep 2022 – Nov 2023
- Turned Figma designs into fully functional Shopify sites; wrote acceptance criteria for client tickets and reviewed PRs.
- Built an admin tool that let clients freely position elements within a Shopify section, plus an interactive legend mapping CTAs to their scroll-target sections. Won the 2022 company swag design contest.

Tech Lead · Tomorrow Agency (now Domaine) — Sep 2021 – Sep 2022
- Led developers across multiple client accounts: code review, major/minor theme releases, weekly sprint planning, and mid-week check-ins.
- Wrote Liquid templates and sections; established SCSS architecture (mixins, directory structure).

Senior Web Developer · First+Third · Contract — Sep 2020 – Sep 2021
- Translated Sketch/Abstract designs into semantic, reusable, accessible, cross-browser code (HTML, SCSS, Nunjucks, JavaScript) for non-profit client sites.

Senior Web Developer · AddEvent / AppointmentThing · Contract — Feb 2020 – Jul 2020
- Delivered front-end code and UI design; built the customer onboarding flow and Help-section search; streamlined appointment-booking code with the back-end developer.

Senior Front-End Developer · Forty-Four Digital · Atlanta, GA — Jan 2016 – Nov 2019
- Built Magento 1 & 2 pages for Cokestore.com and Coke France; delivered Shopify, WordPress, and Drupal builds for a wide range of clients.

Front-End Developer · Tin Roof Software · Atlanta, GA — Dec 2014 – Dec 2015
- Built the front end of CNN Go for DirecTV set-top boxes and Amazon Fire TV Stick (Angular); helped build CNN's Great Big Story (React).

EARLIER EXPERIENCE

Engauge / Moxie — UI Developer 2010–2014
WebMD — Web Developer 2009–2010
Maybe For You — WAI-ARIA work for College Board 2009
Cartoon Network — FusionFall MMO launch site 2008–2009
Superdeluxe (Turner) — Site launch, Yahoo widget 2006–2008
Premiere Global Services — Web Developer 2005–2006
Around The Rings — Site & newsletters 2001–2005
CNN.com — Breaking news, intl. editions 1999–2001

PROJECTS

Nerd Trivia 3000 · nerdtrivia.wtf — Online trivia game based on the live trivia night I hosted in Atlanta. Next.js, Tailwind, PocketBase.

Movie Game — Movie-mashup game with a live host mode; answers protected client-side with the Web Crypto API. HTML, CSS, JavaScript.

EDUCATION

Carnegie Mellon University
B.S., Professional & Technical Writing
Pittsburgh, PA · 1996
